## Importing

The Master Carte software lets you either retrieve a logo or an image from the logo library, or scan an image or a logo.

If you want to use a new image that has not been saved in the Logo library, click this icon to access the scanner. Master Color will start up PhotoShop LE, also see «using the scanner» in PhotoShop.

Click this icon to access the Master Color Logo Library; in the window select topic directory then locate the image or the logo.

Click the image selected to view it, use zoom + and zoom - to enlarge or reduce the view in this window, then confirm with OK.

It appears in your document. You can put as logos and images in your document as you want.

## Importing images and logos

Double-click the logo with the tool and you will access the edit logos dialog box

### Editing logos

Logo #	1	C:\MCW\LOGOS\DAZE.BMP	<input type="checkbox"/> Invisible	Rotate	0	Ok	
Left Margin	2.29	Width	0.85	X %	800	<input type="checkbox"/> X Proportional	
Top Margin	3.17	Height	0.85	Y %	800		
<input type="checkbox"/> Mirror						<input type="checkbox"/> Negative (Windows 95)	Cancel

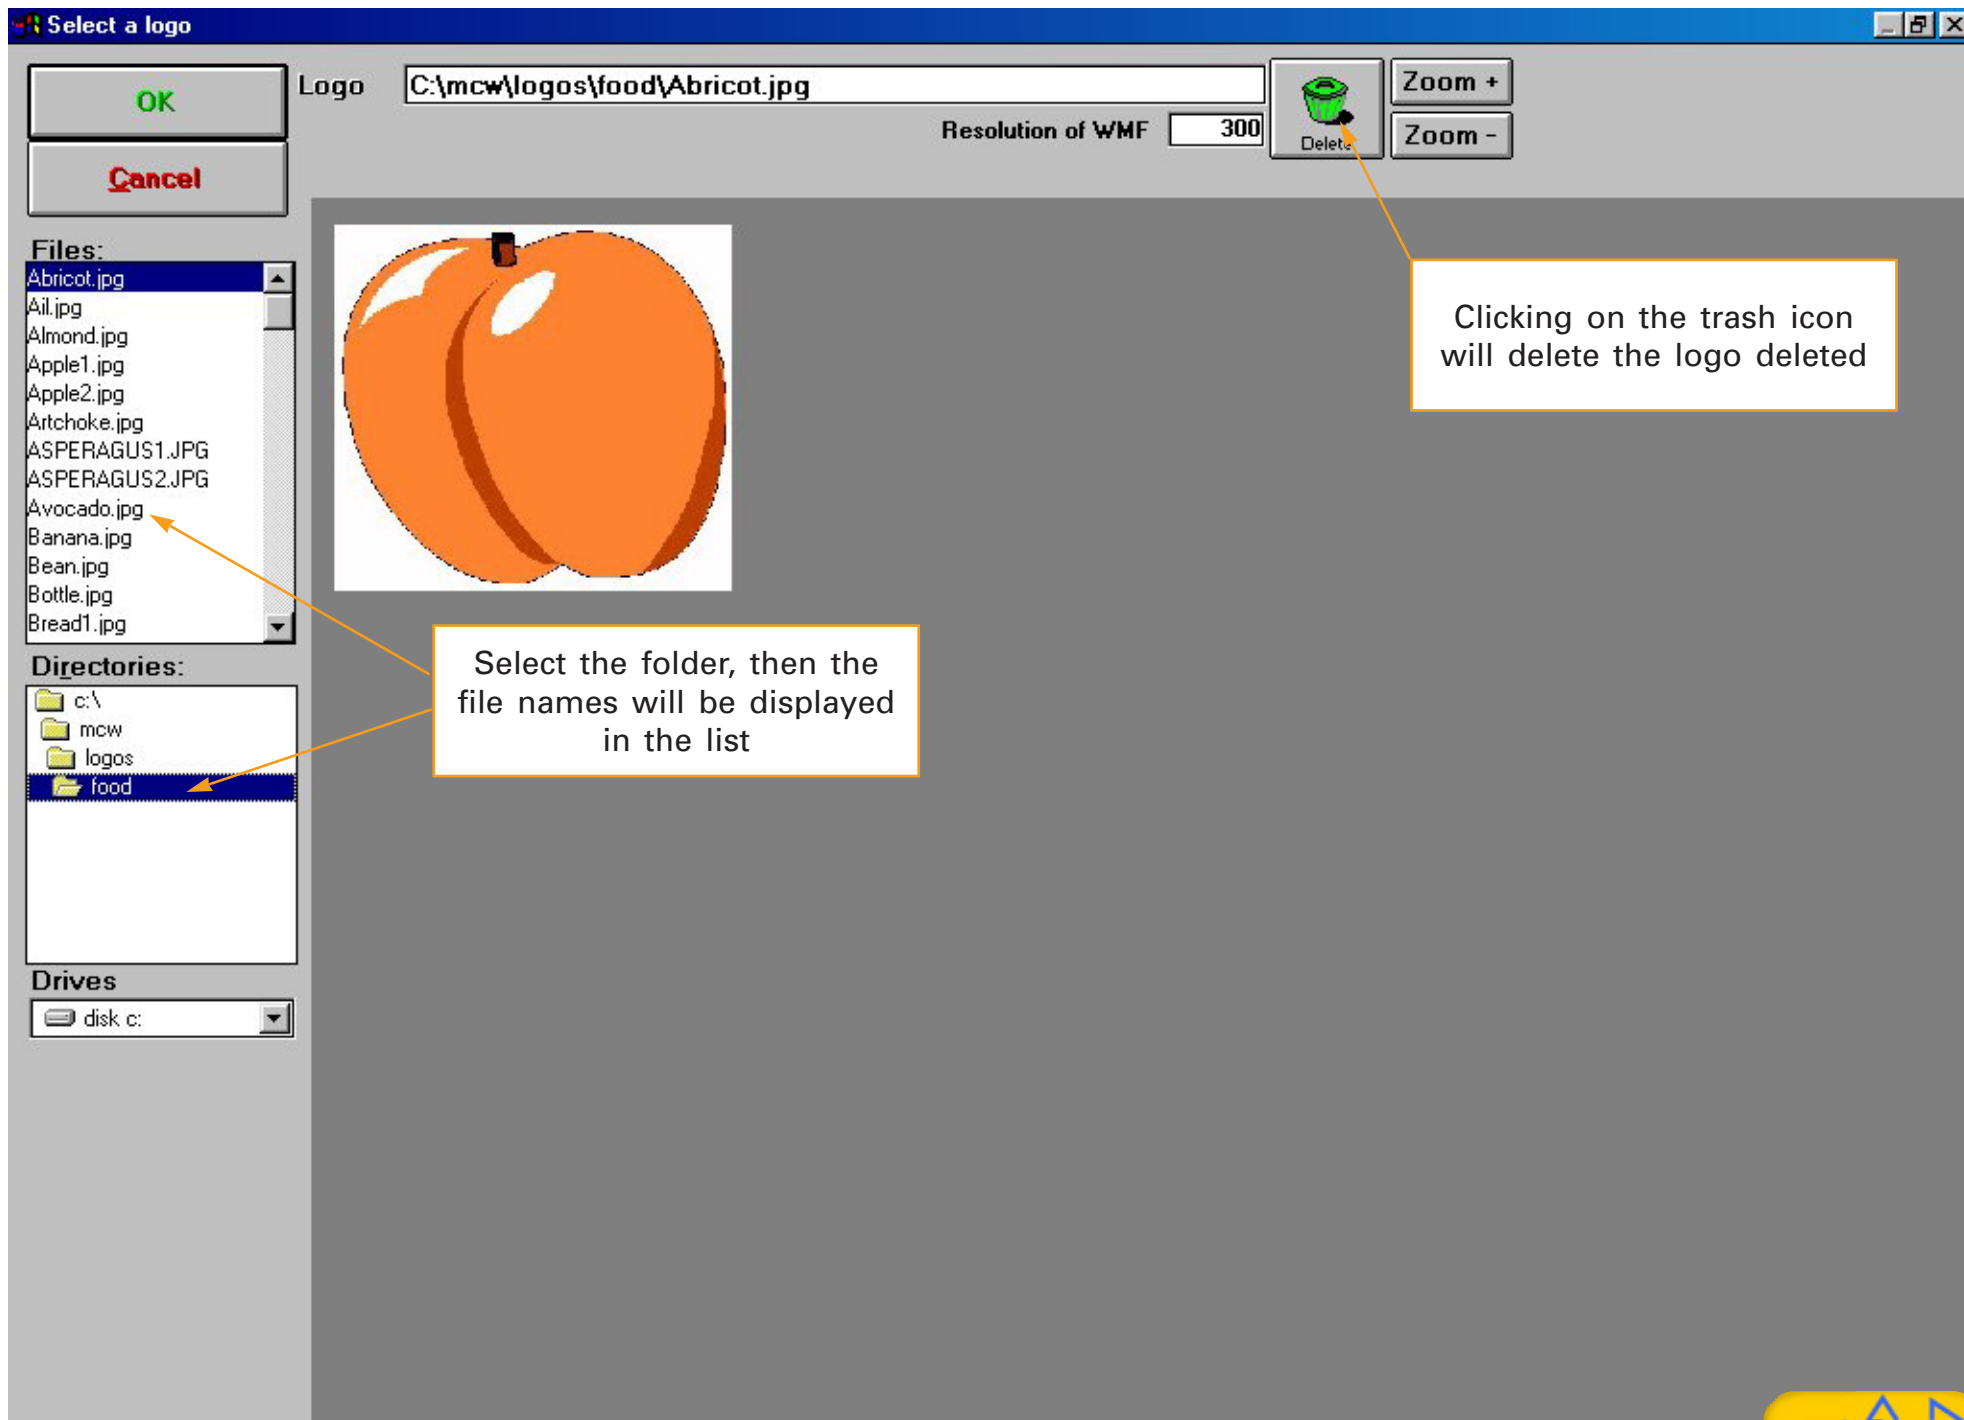

To delete a logo or an image, use the eraser

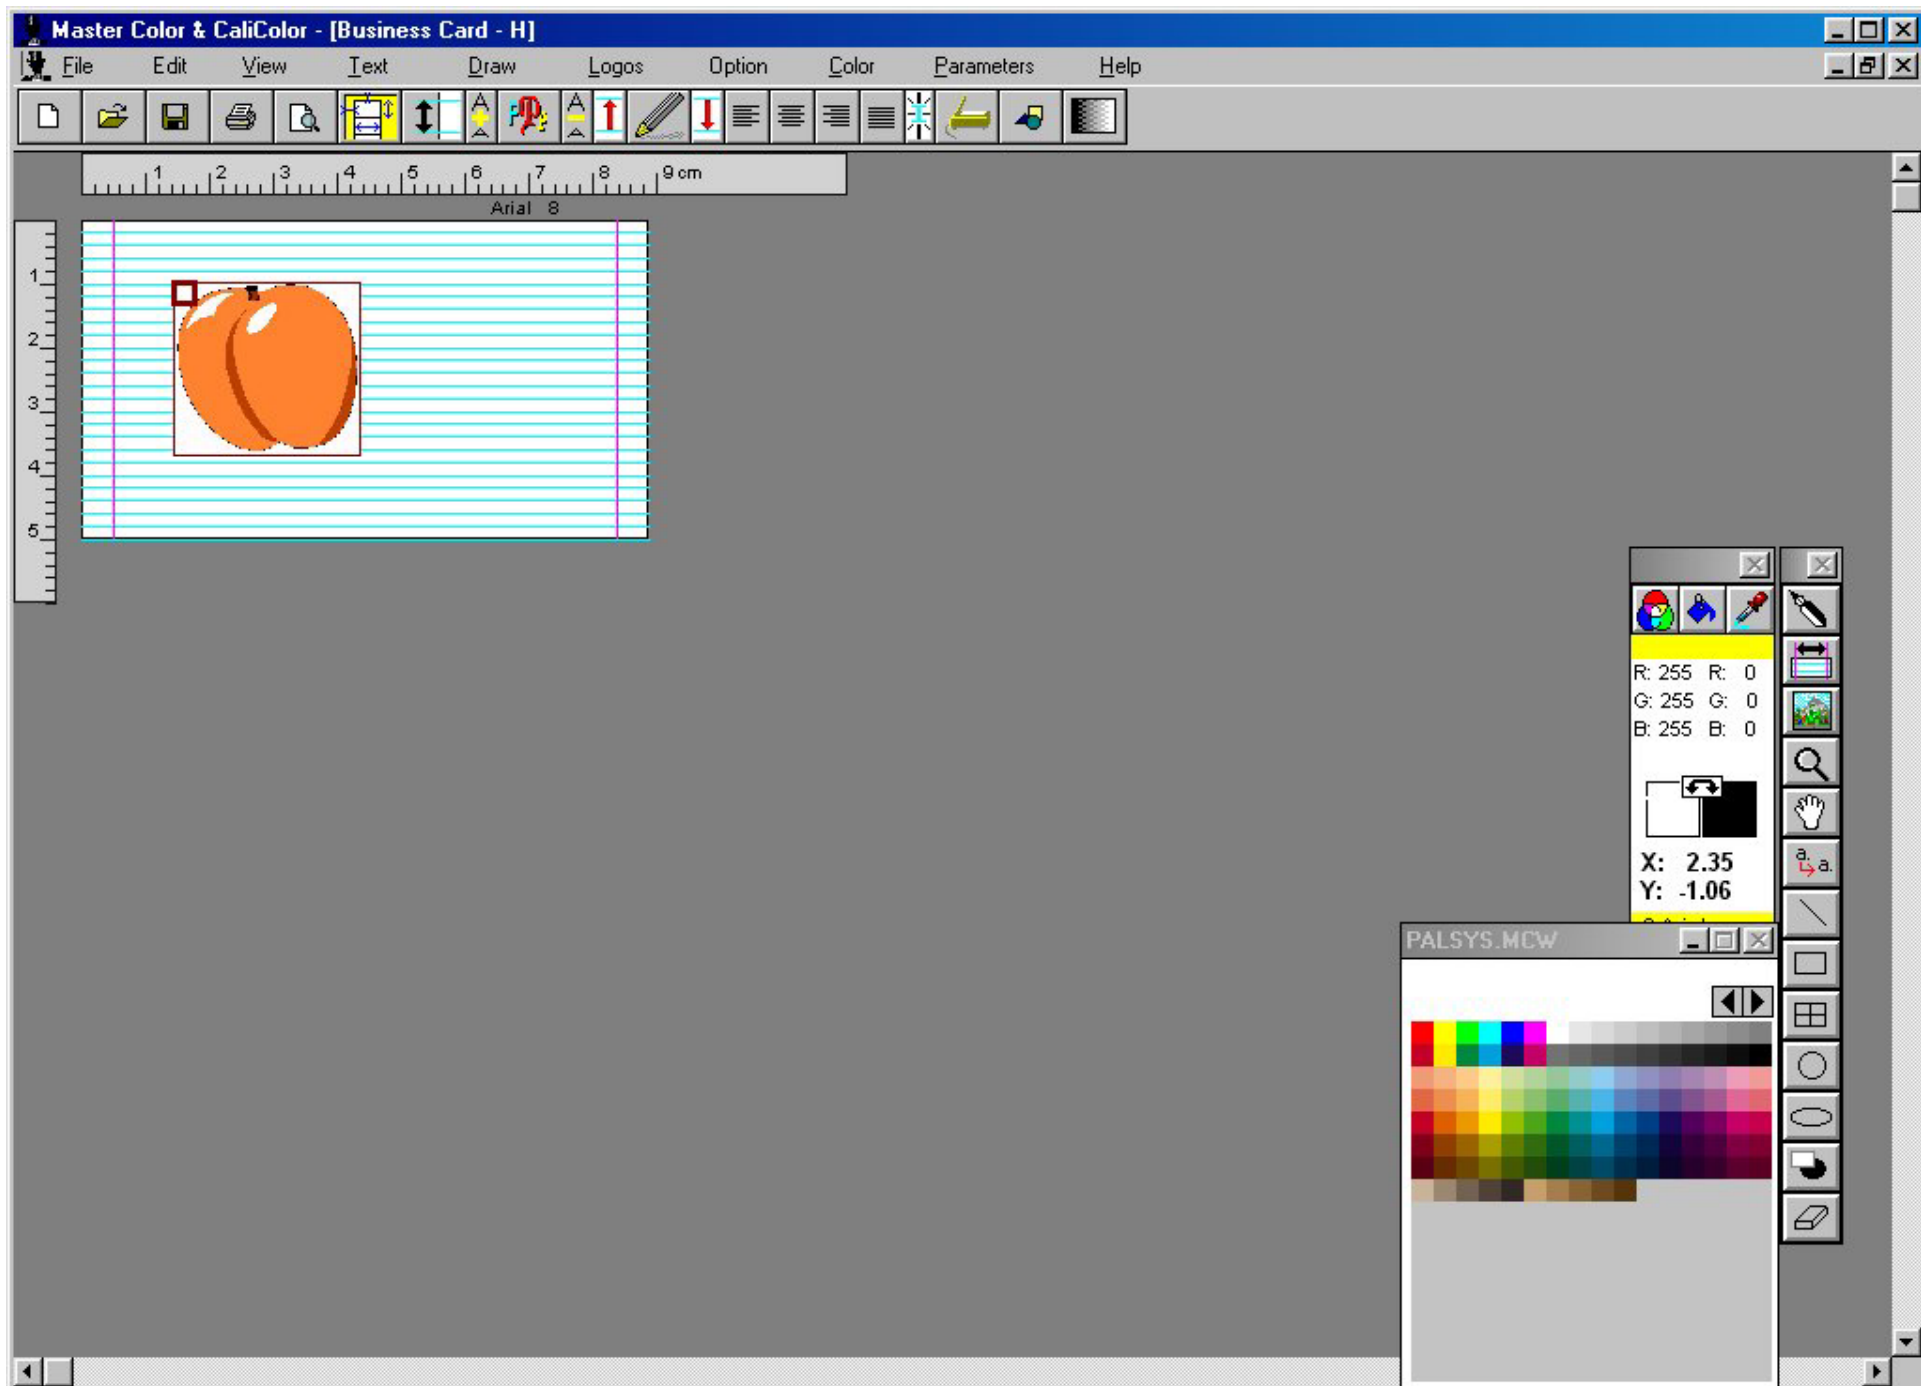

tool and click on a handle

To move a logo or an image, you can use the edit window above, or use the tool

Tip : When a logo is displayed as it really looks, this slows down the display; choose an outline view.  
To do this, click on the **Image** menu and scroll to **Outline display**  
The outline of the logo will be in the document with its name inside.

Logos	Option	Color
List of Logo		
Select Logo		
Scan a Logo		
Retouch a Logo		
HSB / Gamma / Contrast		
<input checked="" type="checkbox"/> Display logo		
Space taken by logo		

Numbers logos imported into the document in order of creation.

Name of the logo and its directories

Do not print the logo.  
An invisible logo appears in the document outlined in blue.

Retains the scale,  
(the height / width proportion)  
if the box is checked.

Logo #	1	C:\MCW\LOGOS\DAZE.BMP	<input type="checkbox"/> Invisible	Rotate	0	Ok
Left Margin	2.29	Width	0.85	X %	800	<input checked="" type="checkbox"/> Proportional
Top Margin	3.17	Height	0.85	Y %	800	<input type="checkbox"/> Mirror
						<input type="checkbox"/> Negative ( Windows 95 )
						Cancel

Position the logo precisely with respect to the left edge and the upper edge of the document, called Point Zero

Enlarging or reducing the logo in cm.

Enlarging or reducing the logo as a percentage.
