Creation

Click this icon to draw gradual shading, in the window that opens, choose your graduated shading style.

First select your colors and the transition levels, and click the style selected. When you return to your card, you automatically have the appropriate drawing based on the style of graduated shading chosen; click and drag to the desired dimension. Your shape filled with the graduated shading appears.

Changing color

Use the color palette, the left color corresponds to the starting color, the right color corresponds to the end color.

To change the palette color, click

In the color selector that opens, choose your color from the **Master Color color charts**
